HOSTILE ALIKE TO THE DESPOT AND DEMAGOGUE. FEARLESS FOR TRUTH, FOR GOD, AND HUMANITY.

VOL. X,

TIFFIN, OHIO, FRIDAY, SEPTEMBER 17, 1858.

NO. 50.

THE GREAT ENGLISH REMEDY,
Celebrated Female Pills.

Prepared from a prescription of Sir
J. Clarke, M. D., Physician Ex-
traordinary to the Queen.

This valuable medicine is useful in the cure of all
those painful and dangerous diseases to which the female
constitution is subject. It moderates all excess and re-
moves all obstructions, and a speedy cure may be relied on.

To Married Ladies
It is peculiarly suited. It will, in a short time, bring on
the monthly period with regularity.

Each bottle, price One Dollar, bears the Government
Stamp of Great Britain, to prevent counterfeits.

There pills should not be taken by females during the first
month of pregnancy, as they are sure to bring on
miscarriage, but at any other time they are safe.

In all cases of Nervous and Spinal Affections, Pains in the
Back and Limbs, Fatigue on slight exertion, Palpitation of
the Heart, Hysterics, and Whites, these Pills will afford a
cure when all other means have failed, and although a pow-
erful remedy, do not operate on the system, calmness, or any
thing harmful to the constitution.

Full directions to the purchaser around each package,
which should be carefully preserved.

Sole Agent for the United States and Canada,
JOHN MOORE, (Late J. C. Baker & Co.)
No. 81-M, 10 and 12 postage stamps enclosed to any au-
thorized Agent, will secure a bottle, containing over 20 Pills,
by return mail.

A Card from Dr. James M. Jarrett,
of the New York Lung Infirmary.

MY connection for the past eight years with the above
Institution, as Chief Physician, and a twelve years
experience devoted to the cure of Pulmonary Con-
sumption and its kindred diseases, together with my
uninterrupted acquaintance with the celebrated Female
Pills, has enabled me to arrive at a decisive and well-
founded conclusion, that the use of these Pills is
indispensable to the cure of the disease, and that the
benefit of both general and local treatment. The success
of my treatment in the above disease, and the high char-
acter of the Female Pills, have been fully established by
the results of my practice. I have seen many cases of
Pulmonary Consumption cured by the use of these Pills,
and I have seen many cases of the disease cured by the
use of these Pills, and I have seen many cases of the
disease cured by the use of these Pills, and I have seen

FIREMEN'S SONG.
"The Old Machine"—Air, Dearest Mac.

"Tis night, and darkness spreads her wings
O'er land and sea; the deep
And many a fond young man
Has darling babe to sleep;

When the wind blows fierce and keen;
But the fireman, as to bed he goes,
Thinks of his "Old Machine."

Then see him lie between the sheets,
While dreams his thoughts confound;
His anxious heart how quick it beats;
For he hears the sudden sound

He start! he springs upon his feet,
Exclaims "what can this mean?"
While the cry of Fire! his success meets,
He runs for the "Old Machine."

"Be quick, take motion, lead out hose,
Man breaks, and play away,
Now break her down, ye eager foes
Of fire's dreadful array!

We will now, don't mind your toes,
We shall soon sweep it clean,
For water in torrent flows
From our darling "Old Machine."

And now the crowd is leaving fast,
Aplaud to seek to repose;
But I have heard an order passed,
"Come wash that dirty hose!"

"It's 'rien 'em down," "Boys, be smart,"
Make haste and get them clean,
Then reel them on that little cart,
Behind the "Old Machine."

And now good night my song's complete,
And yet my art is true;
We do not know but when we meet,
It may be at a fire!

Of this be sure—at danger's call,
We heartily concur—
For friend or foe, alike for all,
We fetch our "Old Machine."

CHIT-CHAT FOR LADIES.

An exchange tells the ladies how to pre-
pare Tomato Sauce. These are the direc-
tions: Gather your tomatoes when fully
ripe, and after washing, mash them in
some suitable vessel. Then place them
in a kettle over a moderate fire, and
when just warmed through, press a cul-
lander down upon them, then dipping from
the cullander all the watery juice possible.

After boiling it a short time, strain the
mass through a wire sieve, just fine en-
ough to retain the rinds of the fruit—then
return it to the kettle, and boil it down
to the desired consistency. (Some prefer
it thin, as it retains more of the flavor.)

taking all care that it does not become
scorched in the process. Heat the bottles
you intend to use, in a steamer, to boil-
ing heat, and while they retain this heat,
fill them with sauce in a boiling state—
Then cork immediately with good corks,
and place them where they will cool.

To Dry Wood Scales—Take one gallon
of water to one pound of yam—one also
ounce of cochineal, two ounces of cream
of tartar, and two ounces and a quarter
of solution of tin. When the water comes
to a boil, put in the cream of tartar, then
the cochineal; when dissolved, add the so-
lution of tin, and then the yam, stirring
it all the time. Let it boil fifteen min-
utes, air it once or twice, and then raise
it well to soft water.

To make Indelible Ink—Put six cents
worth of luster caustic into a bottle, and
to it the eighth of a gill of vinegar; let it
stand in the sun from ten to fifteen hours.
In another bottle put two cents' worth of
gum arabic, and about a gill of rain water.
The first preparation is the ink; the sec-
ond is the preparation to be first placed
on the linen. After marking, expose to
the sun's rays.

To Destroy Flies—To one pint of milk
add a quarter of a pound of raw sugar,
and two ounces of ground pepper; simmer
them together eight or ten minutes, and
place it about in shallow dishes. The
flies attack it greedily, and are soon suf-
focated. By this method the kitchens
may be kept clear of flies all summer,
without danger attending poison.

Starch Polish—Take one ounce of
sperm-candle, and one ounce of white wax;
melt, and mix it into thin cake on a plate.
A piece the size of a quarter dollar, ad-
ded to a quart of prepared starch, gives a
beautiful lustre to the clothes, and pre-
vents iron from sticking.

Blueing for Clothes—(Better and
cheaper than indigo.) Take one ounce of
soft Prussian blue, powder it, and put it
in a bottle with one quart of clear rain
water, and add one quarter ounce of oxal-
ic acid. A teaspoonful is sufficient for a
large washing.

"Such a Loss of a Bonnet"—The fair
fashions for bonnets, as stated by the Paris
correspondent of the Philadelphia North
American, provide artificial fruits as a sub-
stitute for flowers. The latter will pass
entirely out of use. Instead of roses,
Johnny jumpers and daff-down dillies,
the bonnets will be graced with clusters
of artificial currants, or grapes, cherries
and other fruits, done in a glass, of the
least possible thickness. The new bon-
net is in a unique affair and resembles a cab-
bage leaf, trimmed with tomatoes. The
price is cheap, only thirty dollars!

Girl's Slippers—A lady correspondent
of one of our exchanges says: "When
your slippers and buckles begin to be
white at the tip of the toe, we can recom-
mend a 'blackening,' discovered by our
own necessities and misfortunes as 'a
careless boarding school girl.' Take
three parts of the whites of an egg, and
one from the ink bottle. Put it on with
a bit of sponge. Ordinary blacking w'd
of course ruin ink or morocco."

To Extract Indelible Ink, rub the stain
with a little sal ammoniac, moistened with
water.

Jonathan Swank has been nomi-
nated, as an independent candidate for

The Washington Union magnani-

liberal proposition, we shall doubtless
hear of it.

Counterfeit \$10s on the Harrison
Branch at Cadiz of the State Bank of
Ohio, are in circulation. The following
is a description of the counterfeit, it be-
ing a fac simile of the genuine and well
calculated to deceive: Vignette shield,
with a female each side. On the left end,
angle and ship; on the right, wheat field
and house.

Valandigham Backsliding.
The very runner Mr. VALANDIGHAM,
who is slapping against Mr. CAMPBELL in
the Third District, has evidently become
satisfied that the English swindle is too
heavy a load for him to carry. In a
speech at Dayton, according to the Em-
pire, he repudiated that chief plank in the
Democratic platform, and passed himself
off for a follower of DOUGLASS on the ques-
tion of admitting Kansas without regard
to population. This, if he is correctly
reported, fixes his status with the Ad-
ministration. It is a regular "bolt"
from the test prescribed by BUCHANAN,
and subversively adopted at Columbus by
the Democracy. We advise the people of
the Third District to keep a close watch
on this man, and to compel him to assume
distinctly one ground or the other. He
cannot occupy the position the Empire at-
tributes to him, without repudiating his
party.

Facts and Figures.
Special Correspondence of the Tribune.

Columbus, O., Sep. 6 '58.

We promised your readers to further exhibit
the financial record of the Democratic party—
What we shall state below interests the vast ma-
jority. Let them read and examine the figures care-
fully, and act accordingly. We have shown in a
former letter that the State and local taxes were
increased under Democratic rule \$1,989,749.00.

We proceed with the facts. The years 1853-54
& 5, the most exorbitant taxes were levied con-
stantly increasing up till 1855, when Demo-
cratic rule was abolished, and Republican rule in-
augurated. It was claimed by the Democratic
rulers, as an excuse for the levy of the exorbitant
taxes for the four years mentioned, that a ne-
cessity existed in order to pay off a portion of our
state debt, which fell due during those years; a
very laudable object, as a matter of course; but
let us get the facts from official reports. We find
upon examination of auditor Morgan's, official re-
ports, that, in addition to this exorbitant levy of
taxes upon the people, \$759,781.00 of principal,
on which the State was receiving interest, was
converted into money and brought into the Treas-
ury of the State. This \$759,781.00, he observed,
was outside of the legitimate tax receipts, be-
ing the property of the State, on which she was
receiving interest, which was sold and the money
brought into the Treasury. This property
consisted of School lands due, belonging to the
State, which had been previously sold, and upon
which the State was receiving interest. The
amount of our State debt, which was paid during
the four years of Democratic rule, which pre-
ceded the present Republican management, amount-
ed to \$759,781.00. (See Legislative Documents,
1853-54 & 5.) They realized on the property of
the State, as I have before stated, \$759,781.00,
being an amount larger by \$31,804.95, than
the entire amount of public debt which they
paid. It is plain to be seen then that there was
no necessity of an increase in rates of taxation in
our State. On the contrary there should have
been a decrease. Is such a party worthy of our
suffrage? Is it anything short of downright
swindling, that during a time of great financial
difficulties, for us all, as were the years 1853-4,
millions of dollars are drawn from our pockets
for a specific purpose and not one dime is used
even needed for that purpose? It is this same
Democratic party, who are asking our suffrage.
Shall we give it them? Let us answer this ques-
tion at the ballot box in October by a thundering
negative.

It may be asked by some, what was done with
all this tax money? We will give an instance or
two, taken from the official records. The Gen-
eral assembly of 1853-4 appropriated for pro-
tection of work on the State House, \$75,000.00, all
of which was expended for the purpose of con-
tracting, amounting to the immense sum of
\$308,125.35.

Total.....\$308,125.35

Mark this—THREE HUNDRED AND EIGHTY-
THREE THOUSAND, ONE HUNDRED AND TWENTY-FIVE
AND 25/100 DOLLARS, EXPENSE ON STATE HOUSE
for one year. This was under Democratic rule.

The year following (1855) was the inauguration
of this Republic. There was appropriated for
this year, the sum of \$20,000, for the same pur-
pose as above, and at the close of the fiscal year
there was left unexpended the sum of \$46,575.00,
making the actual expenditures under Mr. Platt,
the Republican commissioner, \$43,424.92 for one
year. Deduct the expenses of 1855, under Rep-
ublican management, from the expenses of 1854,
under Democratic management, and we have a
difference in favor of Republican rule of the enor-
mous sum of \$239,700.43, on the State House
alone, for one year. Can we longer wonder the ne-
cessity of the immense tax levies?

Again, the Democratic acting commissioner for
the State House had in store several nice little
jobs for partisan favorites—any one of which
would have made the lucky recipient rich for life
and all of which would have been duly distrib-
uted, but for the unlucky advent of Republican rule.
In 1854, he reported the cost of building a
fence around the State House yard at \$77,000.00.
In 1857 the same style of fence, as that reported
by the Democratic acting commissioner to cost
\$77,000, was erected one half at a cost of \$17,500
or \$35,000, for the entire fence, being a saving
under Republican management of \$49,500. The
same Democratic acting commissioner reported
the cost of grading the State House yard at \$77,
300—over one half the ground has already been
graded under Republican management at a cost
of \$20,000. The saving under Republican man-
agement can not be less than \$50,000.00. These
figures are astounding and yet they are all taken
from the sworn statements of public officers and
cannot lie. Comment is unnecessary.

We will continue the "facts" in another letter.
